PREFACE.

En présentant ce premier volume au public, les Editeurs du *Directory de Québec et Lévis* espèrent qu'on ne le trouvera pas indigne de l'encouragement qu'on a bien voulu donner à une entreprise toute québecquoise. Ils ont pensé qu'il était temps de fournir à la population un *Directory* plus complet que par le passé, comprenant non-seulement la ville, mais encore les endroits avoisinants ainsi que Lévis. Il leur a semblé aussi que le complément indispensable d'une pareille publication était une carte de la ville. C'est donc avec confiance qu'ils livrent à leurs souscripteurs le *Directory de Québec et Lévis* pour 1871-72. L'année prochaine, ils exécuteront de nouvelles améliorations, et à l'aide des renseignements qu'on voudra bien leur fournir, ils augmenteront encore la somme d'informations contenues dans la présente publication. C'est l'engagement auquel ils souscrivent en prenant congé du public jusqu'à l'année prochaine.

PREFACE.

In presenting to the public the first volume of their *Quebec and Levis Directory*, the publishers venture to indulge the hope that it will not be found unworthy of the encouragement so kindly extended to a Quebec enterprise. They thought it high time to furnish a better and more complete *Directory* than any yet published, and which should include not only the City itself with the environs, but also Levis and its neighborhood. They considered, too, that a Map of the City of Quebec should be an indispensable accompaniment to a work of this sort. So that they confidently lay before their subscribers the *Quebec and Levis Directory* for 1871-72. Still further improvements will be effected next year, and with the information which they trust to receive, they will add to the amount contained in the present publication. This is the engagement which they subscribe upon taking leave of the public until next year.

LAVAL UNIVERSITY.

15½ St. George st.

In 1643 was founded the Quebec Seminary, which afterwards became a regular College, and it had, by successive addition, acquired a high degree of importance, when it was erected by Her Majesty's Royal Charter into a University, under the style and name of *The Laval University*. By this charter, which bears date December 8th, 1852, no change was effected in the constitution of the Seminary itself ; but a Council composed of the Directors of the Institution, and the three senior professors of the several faculties, was empowered to possess and enjoy all the privileges granted to the Universities of the United Kingdom, and especially that of conferring degrees in the Faculties of Divinity, Law, Medicine and Arts. His Grace the Roman Catholic Archbishop of Quebec is, by virtue of his office, Visitor of the University. The superior of the Seminary, for the time being, holds the office of Rector.

STADACONA.

Situated on the River St. Charles, connected with the City by "Bickell Bridge," very recently constructed by the gentleman whose name it bears.

Although this village is outside the limits of the City, it may be considered a suburb of Quebec, possessing most of its advantages, without being subject to its burdens.

The population consists of about 140 families, containing some 700 souls, mostly of the working class, who gain their livelihood in the adjoining ship yards, of which there are five on that side of the river; three only, however, are in operation viz : those of Messrs. Julien & Labbé, J. & J. Samson, and McKay & Warner; there is likewise a steam saw mill which is not now in operation.

Hare Point, on the City side, has three ship yards, viz : Messrs. W. H. Baldwin, Narcisse Rosa and Louis Rosa, besides the lumber establishment of Mr. T. E. Gauvreau.

It is to be hoped that in the good time that we expect to come, when manufactures of all sorts will take the place of the now languishing industry of ship building, Stadacona will rank as one of the most populous of our suburbs. It is in every way suitable for the establishment of manufactures.

On the heights above the River St. Charles is a fine level plateau, exceedingly well adapted for Villas, and overlooking the extensive valley of the St. Charles, with a fine view of the Parishes of St. Foye's, Lorette and St. Ambroise, on one side, and on the other bounded by the pretty little river "Lairer" having a splendid view of the City and Port of Quebec.

VILLAGE OF ST. CHARLES

OR

HEDLEYVILLE.

Situated on the north of the St. Charles river, connected with the City by the Dorchester Bridge, contains about 180 families and 850 persons, mostly of the working classes, who have been drawn there by its proximity to the lumber coves, Jones' saw mill and Brown's rope and cordage factory.

It is beautifully situated, being on the banks of the River, with a full view of the City and Port of Quebec, but except something be done to protect it from the tide, in spring and fall, it becomes inundated.

It has been established for many years, but in consequence of the inconvenience of the rising tides has not become so populous as it would otherwise have been.

Being within the Banlieu of the City, it is consequently in the same electoral division.

EDOUARD SAUVIAT

Barbier - Coiffeur,

No. 37, rue du Pont, St. Roch,

QUEBEC,

Maison ci-devant occupée par M. N. Bouchard, Marchand,

A l'honneur d'informer ses amis et le public en général, qu'ayant servi son apprentissage dans la meilleure boutique de Québec, chez M. S. BOURGEOIS, comme Barbier-Coiffeur, il a ouvert une boutique sur le meilleur pied possible, et qu'il rendra toute satisfaction à ceux qui voudront bien l'honorer de leur patronage.

LE SOTHERION,

PAPIER PULMONAIRE ANTI-ASTHMATIQUE

Breveté,

Préparé par le Docteur POURTIER,

De la Faculté de Paris.

Le Sothèrion, Papier Pulmonaire Anti Asthmatique du Dr. Pourtier est infailible contre les maladies des voies respiratoires, et il n'est pas de remède qui possède des propriétés plus uniformément efficaces et certaines. Agissant instantanément et directement au siège du mal, il guérit la Phthisie Pulmonaire ou Consommation, dans tous les cas curables ; son usage continu et régulier produit un prompt et sensible soulagement dans l'état avancé de cette maladie, et dans un grand nombre de cas dans lesquels la Consommation paraissait chronique, les personnes attaquées ont été radicalement guéries, grâce à l'efficacité de ce remède.

Nous le recommandons spécialement aux personnes affectées de l'Asthme. S'il est une affection pénible et rebelle à la plupart des agents thérapeutiques, employés pour le combattre, c'est bien certainement l'Asthme, caractérisé par une difficulté de respiration purement nerveuse revenant par accès réguliers et reconnaissant surtout pour cause l'hérédité, les variations atmosphériques, les émotions vives, les excès, etc. Les accès ont lieu le soir et la nuit, le malade ne peut rester couché, il a besoin de se tenir assis ou debout, et de respirer un air frais. La respiration est précipitée, haletante, bruyante, la toux est pénible suffocante ou convulsive.

En remontant aux époques les plus reculées de la science médicale, nous voyons que tous les remèdes pour combattre cette terrible maladie sont restés impuissants. Cependant la guérison n'est pourtant pas au-dessus des forces de la nature ; mais l'art ne possédait encore aucun moyen certain d'atteindre ce but. Il en résultait que les pauvres malades, las de s'administrer des remèdes sans efficacité, se résignaient à souffrir, persuadés que leur maladie était incurable.

Ce nouveau remède, résultat de longues recherches et d'expériences multipliées, prend chaque jour une extension plus considérable ; il guérit Asthme, Consommation, Bronchite, Toux nerveuse, Grippe, Coqueluche, Irritations de Poitrine et de Gorge, Insomnie, Palpitations de Cœur, Faiblesse de Constitution. On pourra donc, dès aujourd'hui, sans aucun médicament, dissiper l'accès le plus rebelle en huit ou dix minutes, avec ce papier, en continuant d'en faire usage, à la guérison des maladies que je viens d'énumérer.

Son mode d'administration possède cet avantage qu'agissant directement et instantanément sur les parois des voies respiratoires, il attaque le mal dans sa racine. La fumée aspirée pénètre dans la poitrine, agit directement sur les tubercules des poulmons et en neutralise le mal, calme le système nerveux, facilite l'expectoration, et favorise à l'instant la fonction des organes de la respiration.

Le Sothèrion Papier Pulmonaire Anti-Asthmatique épargnera aux personnes atteintes de ces terribles et dangereuses maladies plus d'une nuit d'insomnies, et son emploi continu fera disparaître les accès douloureux qui les épuisent et leur rendent la vie insupportable.

MANIÈRE DE S'EN SERVIR.

1o. Pour dissiper un accès, brûlez une demi-feuille de papier et aspirez-en la fumée par la bouche, de manière que cette fumée descende dans les voies res-
